## Keep Your People Informed

Travel and expat assignments can expose your people to unfamiliar and disruptive situations. The best way to keep them safe and productive is to keep them informed as events unfold, so they can successfully navigate the world.

Worldcue® Mobile delivers the information and intelligence your people need:

- **Alerts on threats and events\*** that could disrupt travel or meeting plans, published for hundreds of global destinations, 24/7
- **Important Notices** created by your company, reminding your people of policies and procedures in key locations
- **Destination Intelligence\*** for hundreds of cities and countries around the world, covering 10 threat categories, so your people know the security, health and transportation climates in advance
- **Navigation Languages** available include: English US/UK, French, German, Italian, Japanese, Mandarin, Norwegian, Portuguese, and Spanish
- **All People Access\*\*** provides the option to expand risk management support to create a “lifeline” for all your people – including those that are at home and in the office

*\*NOTE: intelligence content available in English and Japanese.*

*\*\*NOTE: feature availability depends upon your iJET service subscriptions.*

Easy profile updates simplify communications to and from your people, imperative when in high risk environments. Safety check-ins and crisis notifications are just one-click to greater peace of mind.

## Quickly Connect to Global Assistance

Knowing where your people are is critical to an effective Risk Management program. However, when your travelers, expats, and non-travelers experience crisis, they need more than a flight, hotel or rail information.

For immediate help anywhere in the world, 24/7/365, Worldcue® Mobile connects a distressed person to iJET's Global Hotline for assistance with a single tap.

The Crisis Signal button instantly alerts our response team that your traveler or employee needs help – while pinpointing their current location. Our expert response coordinators handle each situation according to your organization's custom protocols.

## Comprehensive Location Intelligence

Numerous categories of information are available with a tap on the app, including:

- › Security
- › Weather
- › Health
- › Exit and Entry
- › Transportation
- › Legal
- › Culture Language
- › Financial
- › Communications/Tech
- › Environmental

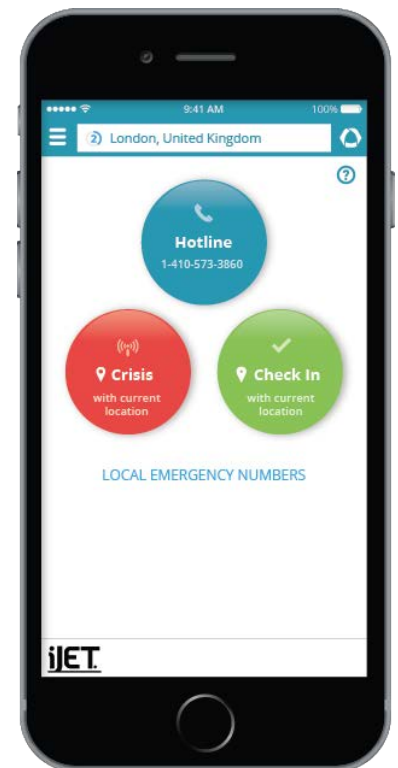

## Advance Your Risk Management Program

Worldcue® Mobile is designed to extend your Risk Management program by simplifying access to your program and services. Available at no additional cost\* to iJET's Worldcue® Travel Risk Management and Expat Risk Management clients, the Worldcue® Mobile app keeps people informed, alerted to dangerous situations, and access to assistance in the hands of your people at all times.

The Quick Connect buttons can be directed to iJET or your own operations center through the Hotline, Crisis Signal or Safety Check In features.

Customize the app's features by mapping to your organization's preferences and standards. If you do not have standard operational procedures in place, iJET will help you to build a solution for excellence and efficiency. Our solutions will help your organization **Prepare, Monitor and Respond** to threats, mitigate risk and save money while fulfilling your responsibility for Duty of Care.

*\*NOTE: feature availability depends upon your iJET service subscriptions.*

Our mission is to be the industry leader, providing tailored solutions to help our clients operate globally with confidence. Each day, our insights protect the personnel, assets, and investments of those we serve.
